Crows Nest Lake Seen as Jewel Of Mountain Pass

(By Scott Schill
Herald Staff Writer)

Crows Nest Lake boasts as the up-and-coming resort centre in Southern Alberta with more interest being shown in it than ever before.

Actually, the centre comprises two lakes, Crows Nest to the north and Island Lake which is seen from the No. 3 highway. The spot is located on the highway just east of the Alberta-B.C. border.

Beauty Spot

At the present time there are only a handful of summer cabins, a pavilion and houses and transformers of the East Kootenay Power Co. There are also a few tables located conveniently around the lake.

The spot is increasingly popular as a beauty place for organizations and families to hold parties and picnics.

Owners of the large dance pavilion is J. M. Chalmers, Coleman Jeweller. He took over the pavilion this year and told The Herald he has extensive plans for the future.

Presently he is trying to develop a children's playground with slides, swings and other equipment.

Plans call for completion of the playground by next summer.

Colorful History

The lake location has a colorful history and tradition as a resort centre and a summer stop. Mr. Chalmers explained.

He has in his possession a letter-head from an oldtime Pass hotel which reads:

Crow's Nest Lake, Alberta 189

The letter-head was given to Mr. Chalmers by Bill Homan, Coleman oldtimer, who found it among some of his records.

The hotel was a stop-over for wagon trains. The trains would stop over at the hotel before pushing on into British Columbia. The hotel was situated on the north side of the lake.

It burned down some years ago, according to Mr. Chalmers, but remnants of the foundation can still be seen.

TRAIN AT BOTTOM

The diamond-bottom lake is famed far and wide as the bottomless lake and on a clear day Mr. Chalmers said, you can see a freight train in the bottom of the lake when you climb one of the mountains surrounding it.

The freight train was derailed from the railroad tracks on the north shore of the lake, he said and overturned into the lake. As far as he knows, no attempt ever has been made to recover the train because of the depth of the lake.

For years rumor has had it that the train was loaded with whiskey at the time of the mishap.

RUM RUNNERS

There are also rumors of cars loaded with whiskey which ran off the narrow road into the lake during the days of prohibition. Whiskey was "run" from B.C. into the dry Alberta country through the mountain pass, you can see drivers staying over at the hotel.

According to local history, many a "rum-runner's" car loaded with excellent liquor went over the banks into the lake. But as far as it is known nobody has ever located the cars or tasted the liquor, but the rumors go on even yet, years after the end of prohibition.

Getting back to the lake itself, Mr. Chalmers thinks it is a spot that could be developed into one of the best summer resorts in Southern Alberta. So do others. Meanwhile, Crows Nest Pass

Long-time Residents To Make Home At Hinton

Two more Coleman business places are taking up residence elsewhere. Mr. and Mrs. C. Huffman, who have been running the Huffman Barber and Beauty shops respectively left this week to take up residence at Hinton, Alberta where they hope to open a similar business in the near future.

Mrs. Huffman was born in Finland and came to Coleman in 1914. She received her education here and in 1923 she opened a beauty parlor here.

Mr. Huffman came to Coleman in 1928. In 1930 he opened a barber shop and the both shops have been run continuously since that time.

They will be missed here both as business people and as community workers. Many friends here wish them all success in their new home and a prosperous business in the future.

TOWN CHATTER

(By Ron Crippen)

The Cal-Standard test well west of Coleman at the 1422 ft. level and that iron ore shows up in the core tests. What next?

Talked to a certain hotel man who is greatly interested in buying Coleman Collieries shares. See by the Albertan these shares are listed at 35 on the Vancouver market. Lethbridge Herald had everyone a-flutter the other evening when they listed these shares at \$30.00. Boy, wouldn't mind having a few thousand at this price. Collieries definitely on the upgrade.

Back to the oil scene, was rather amused last week when I witnessed two different oil seismic crews working for two different Co's drilling less than 100 feet from one another. No passing of information here.

Sports minded folks wondering if Milwaukee can keep ahead of the Dodgers for the National League pennant. The Legion boys swear they will beat all opponents in the Football League for the championship. If they do President Drew will have to dig deep for the refreshments. Legion bingo to be resumed in September 28th under the direction of Pete Smith.

Stop light on No. 3 highway receiving very unfavorable comment—these things always do.

I see Mr. Knox, the station agent, lost a daughter in matrimony on Saturday last. Seemed quite happy about it all. Rev. Rod McAuldy did the honors of tying the knot.

New sidewalks being put in on 6th St.—really quite an improvement.

See by The Creston Review that apple pickers are urgently needed. Pickers will be allowed to take home 20 boxes of apples. This sounds good. Last time I was in Creston almost landed in jail for taking home five boxes. And my kind friend who sold me them. Talked my way through at the highway check point. Well, times will change. By the way, anyone interested in picking apples might drop a line to Mr. N. E. Leveque, Placement Officer at Creston.

Hot rumor of the week—Michel and Natal U.M.W.A. union to break away and join the C.I.O.

Increases in commercial orders last week required the necessity of Coleman Collieries putting their cleaning plant and other outside workings on a two-shift basis in order to meet the demand for coal.

The Tent Mountain strip mine was put on a two-shift basis this week. It is not known at this time whether the officials plan on putting the mine on a double shift.

Persistent rumor has it that the International Mine will open at least one level in the very near future.

Dr. J. K. Mulloy, Well Known Here, To Retire Sept. 21

Crows Nest Pass veterans will greet the announcement of the retirement of Dr. J. K. Mulloy superintendent of the Col. Becher Military Hospital in Calgary, with regret.

Dr. Mulloy has been the superintendent of the Becher Hospital for 16 years, and most of our Pass veterans have had the occasion to pass through the hospital at different times either as patients under the Department of Veterans Affairs or as active military men on duty.

Dr. Mulloy will be 65 years old on September 21. He will be succeeded by Dr. J. A. D. Thompson of Calgary.

Coleman Legion to Sponsor Fund to Aid Korner Child

President Drew of the Coleman Legion announced this week that a fund was being set up to aid Corky Korner, the five-year-old son of Mr. and Mrs. C. Korner, who is suffering a serious kidney ailment. Young Corky is a patient in the Holy Cross Hospital at Calgary. It is expected that this lad will require a prolonged medical treatment with possible surgery.

Information released to the Journal this week by Mr. Drew is that the Canadian Legion has set up a committee to raise funds to defray the high cost of treatment for this lad. A canvass will be made and collections taken.

All service and fraternal organizations will be contacted for donations. Receipts will be issued for all donations over \$1.00. This is an urgent case where help must be forthcoming immediately Mr. Drew stated.

Mr. Korner is a veteran of World War II, enlisting in 1942 and receiving his discharge in 1946. He was injured over 4 months ago and has not been able to work since.

In making this appeal Mr. Drew hopes that all Coleman citizens, and Crows' Nest Pass residents will set behind the Legion and assist to the best of their ability.

Money is urgently needed if this child is to be given a chance to live. It is not only the Legion's responsibility but the community as a whole to help and protect the health of our youth.

No matter whether the ones who need help are personal friends or not. Suffering must not be allowed to go unassisted. The generous help so well known to Coleman residents has already been given with more to come. Mrs. L. Trost was one of the very first to generously give. Her efforts produced transportation for Corky and his parents on the rush trip to Calgary last week. The Legion promises that no stone will be left unturned in obtaining funds to help this very worthy case. Get behind the fund today. Help save a life. Your contributions are urgently needed today.

Start Arbitration Hearings

The Alberta Board of Industrial Relations has announced the appointment of an arbitration board to hear representatives in the wage dispute between District 18, the United Mine Workers of America and Western Canada Coal Operators Association. Tentative arrangements have been made to begin hearings at Calgary on September 17.

The miners have nominated E. H. Read, C.C. of Dumbeller, as their representative on the board, while H. Harries of Edmonton will represent the operators.

The nominees were unable to agree on a third party to complete the board and R. Peterson, minister of Industries and Labor appointed George Bryan, C.C. of Edmonton, as chairman of the board.

It is expected the British Columbia Department of Labor will concur in the setup of the board as agreed in Alberta. This is made necessary because of joint negotiations between operators and miners of the two provinces.

Both the operators and miners decided to apply for an arbitration board when the miners late in July rejected a conciliator's proposal for settlement of the dispute by a vote of 1607 to 1339.

The present scale of pay ranges from \$12.27 a day for laborers to \$13.55 for regular miners.

The conciliator's proposal which was rejected by the miners, contained a three-cent-an-hour increase in pay, three cents per ton additional for the welfare and retirement fund and two statutory holidays with pay—Christmas and Armistice Day.

Coleman Collieries Return to 2 Shifts On Outside Workings

Increases in commercial orders last week required the necessity of Coleman Collieries putting their cleaning plant and other outside workings on a two-shift basis in order to meet the demand for coal.

The Tent Mountain strip mine was put on a two-shift basis this week. It is not known at this time whether the officials plan on putting the mine on a double shift.

Persistent rumor has it that the International Mine will open at least one level in the very near future.

Dr. J. K. Mulloy, Well Known Here, To Retire Sept. 21

Crows Nest Pass veterans will greet the announcement of the retirement of Dr. J. K. Mulloy superintendent of the Col. Becher Military Hospital in Calgary, with regret.

Dr. Mulloy has been the superintendent of the Becher Hospital for 16 years, and most of our Pass veterans have had the occasion to pass through the hospital at different times either as patients under the Department of Veterans Affairs or as active military men on duty.

Dr. Mulloy will be 65 years old on September 21. He will be succeeded by Dr. J. A. D. Thompson of Calgary.

Coleman Boy Shot; Imprison Marine

(Calgary Albertan)

HONOLULU—A 20 year old United States marine has been sentenced to seven years at hard labor for the July 15 shooting of a Canadian sailor. Walter Powell of New York City was convicted of shooting 24 year old Ian Thompson of the Canadian navy ship Crescent.

Besides the seven-year sentence Powell received pay forfeitures and a dishonorable discharge.

Thompson recovered after being in critical condition for a period.

Lake Dance Hall Sports New Sign

Mr. Jack Chalmers, owner of the Lake Dance Hall has had erected a new lighted sign on the hall.

Plainly visible for quite a distance this sign should give an added attraction to this popular spot. The letters are about three feet high and lighted with bulbs set in the letters themselves.

Mr. Chalmers has added a children's playground with swings slides and sand boxes, and he plans additional equipment for next summer.

Shooting of Moose, Deer Continued This Season

New big game shooting regulations announced recently by the fish and game branch of the Alberta department of lands and forests provide for the shooting of Moose and deer being continued this year. The season was reopened in 1955 after having been closed for two years.

This year, the shooting seasons for deer, elk and moose vary a great deal in time and in various areas.

In regard to big game bag limits, the only change from last year is that moose season must have horns with three quarters curl or larger.

The bag limits are one male moose, one male deer, a male caribou on special licence and in the Athabasca area only or a male elk, one grizzly bear and subject to certain provisions, one black, brown or cinnamon bear.

The season for shooting of a male moose season will be open throughout the province from Sept. 1 to Oct. 31, both dates inclusive.

For deer, the season inside the Crownstest Forest south of No. 3 highway, is Oct. 15 to Oct. 17. Outside the Crownstest Forest, south of No. 3 highway and west of No. 2 highway, the season will open from Oct. 15 to Nov. 30.

West of No. 2 highway, between No. 3 and 1 highways and east of the forest reserve, No. 3 highway to the Gap, east of Livestock Range Gap to Willow Creek road and east of Willow Creek road and forest reserve to No. 1 highway deer shooting is permitted from Nov. 1 to Nov. 30.

West of the above described area and excluding the corridor between the north and south parts of the new River forest from Morley Indian reserve to Banff, called the "corridor", the deer season is open from Oct. 15 to Nov. 30.

Shooting of elk will be permitted inside the Crownstest Forest south of No. 3 highway from Oct. 15 to Oct. 17. Outside the Crownstest Forest, south of No. 3 highway and west of No. 2 highway, the season runs from Oct. 15 to Nov. 30. The elk season will be open from Nov. 1 to Nov. 30 west of No. 2 highway between No. 3 and No. 1 highways and east of forest reserve No. 3 highway to the Gap east of Livestock Range Gap to Willow Creek road and forest reserve to No. 1 highway.

In the area west of that described above and excluding the corridor, elk shooting season will be open from Oct. 15 to Nov. 30.

Season for male or female elk in the area north of No. 1 highway, excluding the corridor, west of No. 2 highway and south of No. 16 highway is open from Nov. 26 to Nov. 30.

In regard to moose, the regulations provide for the season inside Crownstest forest reserve south of No. 3 highway being open from Oct. 15 to Oct. 17.

In the area north of No. 3 highway, west of the Forest Reserve boundary to the Gap, west of Livestock Range from the Gap to Willow Creek road, west of Willow Creek road and the forest reserve boundary to No. 1 highway and south of No. 1 highway to Banff Park the moose season is open

Mixed Vocal Chorus Plans Busy Season

Crows Nest Pass Mixed Vocal Chorus held its first meeting of the season this week for the purpose of reorganizing for the coming season. The group is headed by President Betty Slapak, secretary, Joan Slapak and business manager Camille Robotka, and it is expected a conductor will be arranged for in the near future.

During the last season the chorus, which comprised 35 male and female voices from all of the Pass towns, gained recognition through concerts held and through winning the first prize with a mark of 88 in the Lethbridge District Music Festival last spring.

In order to keep chorus functioning letters will be sent to all last year's members and to prospective singers requesting they attend the next meeting. Should any person be interested in joining the chorus they are requested to contact any of the executives and they will be heartily welcomed.

Mrs. Jean Burzman of Blairmore has again agreed to be the pianist.

Mrs. S. Penney Attends Installation Ceremonies

Mr. and Mrs. Steve Penney and Sheila returned home recently from a trip to New Orleans, Louisiana, travelling via Great Falls, Salt Lake City, Oklahoma City, Raton, New Mexico, Dallas and Houston, Texas, returning via Jackson, Tenn., Moustou, Wisc., Chicago, Minneapolis, Winnipeg and Regina.

While in New Orleans they attended the Installation Ceremonies for Mrs. N. E. Douglas, who was installed as Supreme Chief of the Pythian Sisters for Canada, U.S.A., Alaska and Hawaii, Mrs. Penney and twenty-one other Canadian ladies taking part in the ceremony.

They also visited Miss Penelope McDonald in New Orleans. Penelope is the daughter of Mr. and Mrs. J. A. McDonald of Coleman, she says "hello" to all her friends.

JUST TO BE GOOD, to keep life pure from gear-tearing elements, to make it constantly helpful in little ways to those who are touched by it, to keep one's spirit always sweet and avoid all manner of petty anger and irritability—that is an ideal as noble as it is difficult.—Edward Howard Gross.

from Oct. 15 to Nov. 17.

The season for grizzly bear will be open throughout the province from Sept. 1 to Nov. 30 and from April 1 to May 31.

For black and brown bear the season in forest reserves is open from Sept. 1 to Nov. 30 and from April 1 to May 31.

The corridor lying west of the Stony Indian reserve, east of Banff Park and between the northern and southern sections of the Bow River forest, is closed to all big game hunting.

There is a new resident licence fee of \$10 to take mountain sheep and mountain goat.

● Creston Sawmills Ltd. takes delivery of two International trucks for hauling logs. Above shows Mr. Vigne standing beside one of the new units.

● Above shows the size of the tire on the Creston Sawmills Ltd. new electric log skidder. The tire weighs 1830 pounds, and is a 20-ply. It is 33 inches wide and 6 foot one inch in diameter. It takes 30 tons pressure and is tubelless. Some comparison is shown by Harold Chernoff standing on the huge piece of rubber.

World Happenings In Pictures

(From The Swift Current Sun—July 23, 1956)

Former local pianist breaks world record

Back in 1947-48, a young fellow by the name of Donald (Tiny) Bird used to sit at the piano in the old Piccadilly Cafe and "send" collegians with his impromptu ramblings. The kids would gather by the dozen, because there was something in Tiny's music that appealed to them. Since those days, the big piano-thumper has gone a long way. Twice he has broken the long-distance piano-playing world record. Just last week he set a new record—72 hours, 20 minutes—and hopes it will stand for a long time, because he swears he'll never tackle it again. It's too tough, even on the constitution of a 223-pounder! Tiny is shown above, after going the half-way mark. The young lady is Kay Lohian, recently crowned "Miss North Bay" in a beauty contest held in the Northern Ontario city, where Tiny set his record. Tiny is the son of Mr. and Mrs. Horace Hockett of this city. They are naturally thrilled with his accomplishment, but hope he won't have to do it again because of its physical strain. The pianophon was tremendously popular with North Bay audiences; as many as 2,000 people paid admission at various times to sit in on the long-distance event and to cheer Tiny on to his new record.

THE BELL X-2, stainless steel and nickel alloy rocket plane nestles under a mother ship prior to release during a recent test flight in which the aircraft reached a new high mark for speed. The rocket, piloted by Lt. Col. Frank K. (Pete) Everest, chief of flight testing operations at Edwards Air Force Base, Calif., was clocked at 1,900 m.p.h.

BASEBALL A LA TOKYO—Baseball, the American pastime, gets the full treatment for Japan's pro-baseball All-Star game in Korakuen Stadium in Tokyo. It's a royal fanfare, including ascending balloons, costumed girls and brass bands, and a capacity crowd of 45,000 ardent fans as the top players from Japan's two major leagues await the "Play ball" cry.

CO-ORDINATING JERSEY and skirt by Lyndale Sportswear Inc., Montreal, was jersey of Newlands 100 percent Botany Wool with V neck that is accentuated by cord tuck trim. Features 3/4 pushup sleeves. Jersey is dyed to match the Sportenpos "custom contoured" skirt, which is impeccably tailored in Boutique French Canadian.

EMBRACE IN COURT—Mrs. Gladys Lloyd Robinson embraces her son, Edward C. Robinson, Jr., after he appeared on a drunk driving charge. The scene was at Santa Monica County building where Mrs. Robinson obtained an interlocutory decree of divorce on charges of mental cruelty from Robinson, Sr.

IMPORT: Chinese actress Lili-Hwa, who has starred in 63 motion pictures in the Orient, poses in Chicago, Ill., as announcement is made that she'll soon appear in American films. Her first appearance will be in Cecil B. DeMille's "The Buccaneer," soon to be filmed.

EARL K. BOYDEN, 60-year-old Huntsville, Ont., souvenir-shop keeper, re-enacts a scene which ended in the death of Barney Vincent, a Toledo, O., tourist. Vincent asked Boyden to pose with a rifle for a movie sequence. As Vincent took the picture Boyden's gun discharged killing the tourist. Later, a coroner's jury saw Vincent's movie and absolved Boyden of blame.

ED SULLIVAN, of television fame, was in hospital recently following an auto accident which injured Sullivan, two occupants of his car and the driver of the other car. Sullivan received contusions of the chest and is reported in fair condition. The mishap occurred, police said, when the approaching auto veered to the left side of the two lane highway. Joseph Palmucci, driver of the other car, is also in hospital with a broken hip and facial injuries. Sullivan's son-in-law, Robert Precht, and a private detective, hired by Sullivan, were also injured in the head-on crash. Precht suffered a broken ankle and Ralph Cacace, the detective, was unconscious with a fractured skull when admitted to the hospital.

LONG-DISTANCE HOUSEWARMING—Residents of Rollingwood housing development near San Bruno, Calif., watch as a little girl, left, adds a bathroom scale to a packing-case-ful of "housewarming" presents which will accompany a full-size American home on its journey to Russia. The house and everything in it, including the kitchen sink, has been purchased by Russia in wake of a building delegation's visit to this country last fall. House has been disassembled, crated and en route to Russia.

The expanding town

(The Estevan Mercury, Sask.—July 26, 1956)

Away back in the early 'teen years when the Canadian west was in the throes of a boom with thousands of people taking over farm lands, hundreds of miles of new railway lines being built and towns mushrooming up along them, the enthusiasm envisioned metropolises by the dozens.

Railway divisional points, points from which branch lines ran off or towns that were fortunate to be served by two different railway lines, all became opportunities for real estate men to advertise in glowing terms as to their future for the purpose of selling lots in adjacent acreage.

Dozens of cities and towns in the prairies were given this treatment and it is no exaggeration to say that town lots were sold in almost every country in the world due to exuberant advertising and high-pressure salesmen. It was an oft-quoted fact that nearly every "gob" on a particular U.S. battleship stationed in the orient had been sold at least one lot in one of the Grand Trunk Pacific's divisional points. That was one example of the far-reaching penetration of the sales pressure common in those hectic days.

Estevan did not escape the thrill and the final disappointment. A half dozen or more sub-divisions were surveyed and the buying and resale of lots became a serious pastime. Though 40 years have elapsed evidences still remain in one of them, about a mile from town, of the graded streets made as improvement to help entrap the weak investor. The land has long since returned to pasture even though a few trusting souls continued to pay taxes until comparatively recent years.

In a more real sense the boom has returned, but fortunately the sub-division expert and real estate promoter as such is missing.

This time the expansion of the town is not a pipe-dream to be realized in latter years. Instead the business area has now overflowed into the adjoining rural municipality of Estevan with legitimate investment to meet the needs of the companies involved.

Suitable sites in the town itself are now practically unavailable for many types of business and these have gone past the limits to secure the most convenient and close-in spots obtainable.

Without planning or any form of persuasion there has been a most fortunate division of interest between housing, business and industrial. Residential construction has mainly centered in the west end and in Hillside. Trailer courts have taken over the semi-isolated "peninsulas" on the south. Business and industrial interest have centered and extended eastward and northward after having occupied all the trackage available in the yards of the two railways.

Oldtimers, on return here, would be more than surprised to find the amount of growth eastward past the old gravel pit which extended on both sides of 39 highway and which has been refilled at a cost many times the amount the gravel taken from it sold for. The refill is now occupied by business establishments.

The spreading out of business into the municipality has brought a new angle of administration to the rural council. No longer is it concerned only with the problems of roads and weeds and crops and pastures and those things purely agricultural.

A whole flock of new responsibilities has fallen on its shoulders.

Urban problems of administration have been added to the rural. From now on they will be concerned with zoning, new streets or roads, lighting, new sanitary problems, new assessments and a lot of other things.

The early real-estate promoters who pictured a greater Estevan were just about 45 years ahead of the times. The reality is now here.

4-H Club tours build teamwork!

(The Drumheller Mail—July 25, 1956)

In most areas, the 4-H tour is becoming an annual feature of the summer's program. Some of these tours are to farm homes of fellow club members whereas others are farther afield to such places as experimental farms, universities and large cities.

4-H tours and trips, whether large or small, are valuable and essential in developing a well-balanced club program. They help to satisfy the desire of everyone to travel, to meet new people and to exchange ideas. In addition, there is no finer medium through which members, leaders and representatives of the departments of agriculture can compare projects and talk about new ideas and solutions to common problems.

Tours help also to build team-work, to develop good publicity and to provide opportunities for specialists in industry and education to acquire a fuller knowledge of how 4-H clubs operate and of their contribution to the general betterment of living in rural areas.

Who buys Ceylon's tea

We have been hearing so much about the British getting kicked out of Ceylon that we fail to remember that Ceylon's entire economy is tied up with British foreign trade. Without the British outlet for her tea, Ceylon would cut a sorry figure in world trade. So, don't be surprised if some far-seeing compromise is not reached before a final settlement is reached. With Iceland and the Americans the situation is a bit different. Way back in 1951 when we sat down in Iceland for two hours on our way back from Europe, the attitude of the Icelandic people was cold and indifferent . . . but they did feel us well, for which they were well paid. They are now, apparently, willing to sell out their birthright and freedom to a new ideology which has brought nothing but murder and slavery to those people who have embraced its philosophy. Here, too, we have a feeling that common sense will ultimately prevail.

MISS CANADA is back in Montreal after what she described "as the busiest two weeks of my life," following her jaunt to England and France. Miss Dorothy Moreau arrived back in the country after a J. Arthur Rank screen test in London, television appearances, radio auditions and a bit part in a movie. Miss Moreau, a 114-pound, five-foot-three beauty won the Miss Canada Pageant in Hamilton in early July and has since found little time to herself although she did manage to see Paris and London before her return. She is slated to make appearances on Canadian and American Television and will represent Canada in the Miss America Contest in Atlantic City in December. The above photo shows Miss Canada being greeted by her two admiring brothers, Rev. Bernard Moreau and Real Moreau on her return to Montreal.

Chemical control of Canada thistle

Canada thistle can be controlled by the use of 2,4-D ester, but eradication should not be expected from a single treatment.

In cereal grains, top-growth control is obtained with a treatment of 6 to 8 ounces acid equivalent. Such treatment should be applied to the grain crops between the four-leaf and early shoot-bud stages of growth and is unlikely to do more than control thistle top-growth. Some degree of stand reduction is possible if a 12- to 16-ounce rate of 2,4-D ester is applied in the stubble shortly after removal of the crop, followed two weeks later by a cultural treatment.

Best stand reduction of thistles can be expected from one or more treatments of 2,4-D ester at 1 to 1½ pounds in the fallow years. The first application should be made at the early flower-bud stage of thistle growth, followed by a cultural operation two weeks later. The best procedure would be to give a first cultivation of fallows to kill early weed growth and volunteer grain, substituting the second fallow operation with the 2,4-D application when thistles have reached the bud stage. Following can be resumed two weeks after chemical treatment.

A well-planned eradication program for the cropped areas of a farm should be supplemented by a program of spraying thistles in fence lines and waste areas, and on adjacent roadways. In these places, 2,4-D ester should be used, and applied when the thistle growth is in bud. Continued treatment of infested areas is essential, and the timing of chemical application is of prime importance to assure the best possible results. In zero weather sound flies through dry air at 1,088 to 1,150 feet a second.

Output of asphalt and vinyl-asbestos floor tiles in June

Production of asphalt floor tiles declined in June and vinyl-asbestos tile production increased from last year, but output of both types was larger in the first six months this year than last. Output of asphalt floor tiles amounted to 10,059,976 square feet in the January-June period versus 9,077,794 a year ago and vinyl-asbestos floor tile to 6,763,443 square feet versus 5,511,461. June output of asphalt floor tiles totalled 1,466,630 square feet compared with 1,677,335 a year ago and vinyl-asbestos to 1,107,709 square feet compared to 809,081.

THE ODD BATH

In the Middle Ages the only times the peasants had a formal bath were at birth, before marriage and when they died.

HONORARY ORTHODONTIC CONSULTANTS APPOINTED

The appointment of Dr. Joseph J. Schachter and Dr. J. G. Mitchell as honorary orthodontic consultants to the Physical Restoration Division was announced by Hon. J. Walter Ehr, Minister of Public Health.

Dr. Schachter, who conducts a private practice for orthodontics in Saskatoon and Regina, will assist in the development of Orthodontic team services in Saskatoon to provide proper care for children with cleft palates or similar conditions requiring special evaluation. Dr. Mitchell will serve in a similar capacity in Regina.

Orthodontia is the correction of deformities of the teeth through braces and other devices used by the dental specialist.

Dr. Schachter was born in Montreal, and came to Saskatchewan at an early age. He took his elementary education in Leask, and graduated from the University of Saskatchewan in 1932. In 1937 he graduated in dentistry from the University of Minnesota.

Following private practice in Saskatoon, Dr. Schachter joined the Canadian Army in 1940 and saw service overseas with the Canadian Army Dental Corps. Fol-

lowing the war, he took special orthodontic training in New York and Philadelphia and a graduate orthodontic course at the University of Illinois. He was certified as an orthodontic specialist by the University of Saskatchewan in 1951.

Dr. Schachter holds membership in the Canadian Dental Association (Orthodontic Section), the Saskatchewan Dental Association, the American Orthodontic Association, the Pacific Coast Orthodontic Association and the Honorary Dental Society of America.

Dr. Mitchell has had previous public health dental experience in Newfoundland. He conducts a private orthodontic practice in Regina and Moose Jaw at the present time.

After public and high school education in Milestone, Saskatchewan, Dr. Mitchell graduated from Regina College as an Associate in Arts. He then obtained the D.D.S. degree from the University of Toronto in 1952, followed by the degree Master of Science in Dentistry from the same University in 1955. In the latter course he majored in Orthodontics. He is keenly interested in prob-

Two sharp-faced men were drawing up articles of partnership before their lawyer. The lawyer went over the document before the final signing and said suddenly, "But there is no mention of fire or bankruptcy. These must go in."

"Quite right," said the partners, speaking at once. "Put them in, but the profits are to be divided equally in both cases."

A man was devouring an apple as fast as he could. "Go easy, Sam," said his friend. "You'd better watch out for worms in that apple."

"Listen, pal," laughed Sam, worms have to watch out for themselves.

A customer at a barber's shop was the West End play-boy type, and his manicurist was extremely pretty. Followed the usual badinage . . . and then, the young man said: "Will you have supper with me tonight—and then maybe go to a night club?"

"I don't think I should," said the girl. "I'm married, you see."

But the playboy was the self-confident, high-humored, marriage - mustn't - mean shackles type.

"Nonsense! Ask your husband, I'm sure he won't mind." Ask him yourself," said the girl. "He's shaving you."

One of the witnesses in a case in America was an old man.

"Did the defendant use improper language when he was beating his horse?" asked a lawyer.

"Well, he talk mighty loud, sub," replied the witness.

"Did he indulge in profanity?"

The witness seemed puzzled, and the lawyer put the question in another form: "What I want to know is, did he use words that would be proper for your minister to use in a sermon?"

"Oh, yes, sub," he old man replied, "but they'd have to be 'ranged different'!"

There are hundreds of ways of making money, but only one that's honest.

"What's that?"

"Ah, I thought you wouldn't know."

Terms of the cleft palate, having trained in this specialty at Toronto Sick Children's Hospital.

Jane Ashley Says

"Corn Starch Makes Smoother Puddings!"

CHOCOLATE CREAM

- ½ cup granulated sugar
- 6 tablespoons BENSON'S or CANADA Corn Starch
- ¼ teaspoon salt
- 4 cups milk
- 1 square unsweetened chocolate
- 1 teaspoon vanilla

MIX sugar, BENSON'S or CANADA Corn Starch and salt in top of double boiler.

ADD milk gradually, mixing until smooth.

CUT chocolate into small pieces; add to milk mixture. PLACE over boiling water and cook, stirring constantly, until mixture thickens.

COVER and continue cooking 10 minutes longer, stirring occasionally.

REMOVE from heat; stir well until chocolate is blended.

ADD vanilla and cool slightly.

POUR into serving dishes and chill.

YIELD: 6 to 8 servings.

For free folder of other delicious recipes, write to:

OF MANY THINGS (By Ambrose Hills)

IS ANYBODY RIGHT?

A reader has ticked me off. He writes, "You are against everybody—industry, farmer, labourer. You berate the government one day, the CBC the next, and somebody else the next. Don't you like anybody?"

Ummmm! Reading back, I note that I have been pretty querulous. A fellow ought to be for something once in a while!

Okay, fellow, I like the way industry is bursting out at the seams developing oil, minerals, and other resources. If I had money, I'd be into common stocks, because I think our industries are well-managed. Most business men are honest and sincere, but I get sore at them when they run to the government for favors.

I like farmers when they're plowing straight furrows and keeping their fields rich and free of weeds, and fighting for prices which are right and just. I admire today's farmer, because he's had the courage to modernize, to produce more goods with less manpower. The only time I get sore is when farmers take what I believe to be an immoral stand by attempting to ban a good food through power politics, while pre-

tending they ought to wear halos like saints. I like farmers more than anybody when they don't get to liking themselves too much. Lately, they've been talking in a learned way about everybody else's business, but when anyone else talks about farming, they cry, "How do you know? You're not a farmer."

Like every city slicker who wears a collar, I've a sneaking respect for labor's brawn and muscle and camaraderie. Pass the hat for a sick pal or his family, and working men are generous. I get sore at them only because they don't run their unions any more—and union leaders make suckers out of them as much as bosses ever did. Union leaders purport to speak for their membership on controversies where the leaders and union members are as far apart as the poles... yet the workers let them set away with it.

I'm not entirely against governments, either, but I think somebody's got to howl when they exceed their proper powers.

But starting next week, I'll try to have more sweetness and light in this column. I'll get up on the other side of the bed.

FREE HEALTH SERVICE

I have been participating in a free health service and I feel pretty good.

It works this way. You pay no premiums, and there are no taxes deducted from your pay cheque. The only requirement is a willingness to do things for yourself. Here's how I gained my membership in the free health service clinic.

I took a 7-day holiday, and I devoted it to health. I went to bed early, rose early, limited my coffee and cigarette intake, drank plenty of good, fresh water, ate moderately, swam a great deal, sat in the sun, laughed, walked, and worried not at all.

Results? Well, my stomach flattened out and the muscles feel firm. I've a nice tan, which makes me look healthier, so I get a lift when I look in the mirror in the morning. The daily walk improved my wind; the swimming relaxed me; the sun provided vitamins; the laughter and fun was a tonic. At night I am pleasantly tired and sleep soundly. I firmly believe that any person able to walk around can be healthy if he has a mind to be healthy. Water, sun, exercise, good spirits

School Days Will Be Safer Days

The Labor Day week-end, the last of our summer driving extravaganzas is behind us. Deaths over the holiday week-end totalled 46. Over the same period in 1955, 55 people were killed. This represents an improvement of 16 per cent, though we can scarcely refer to the killing of 46 people as an improvement.

Every province in Canada has stepped up its enforcement program and has extended its road improvement program. We are paying attention to Enforcement and Engineering, but we are neglecting to make the most of Education, which is the most important of the three "E's" of accident reduction.

Accidents are prevented through education.

It is probably the strongest weapon we have. Education in our schools brings regimentation both for the children and for their families. Regimentation brings discipline. Discipline brings control, and control—self-control or group control—outlaws accidents.

Now that children are back to school, week-end travel has lessened, holiday trekking is over and pleasure driving is reduced. We can look for fewer accidents because of less traffic density and fewer driver distractions. The classroom lessons in safe walking will infect child and parent alike. The children will be doing their share to remind us to drive and walk carefully. May we hope that as adults we will take a good look at our driving habits and try to drive with care and courtesy.

Accidents happen one at a time. They may be prevented one at a time. There are very few traffic accidents which would occur if the situation repeated itself. Few

of us drive as well as we know how to drive.

Days grow shorter. Night comes quickly. Roads are more slippery. Driving conditions in general become more difficult during the fall. The Canadian Highway Safety Conference urges that we pay attention to these things and by our watchfulness prove that September, October and November need not be serious accident months.

Vacation Safety Hints

"Every family looks forward to a vacation of motoring together. It is a good memory through the team work of safety," says Mrs. Rex Eaton, O.B.E., President of the National Council of Women of Canada, representing more than half a million Canadian women.

"The men will do more driving than women on long trips but the one who is not driving has a large part to play in safety," she adds.

In a statement on highway safety, Mrs. Eaton recommends that the rules set out by the National Safety Council, which are based on studies of factors causing accidents and which make sense, be followed.

"Make sure doors are locked... particularly to protect the children, and do keep the children from playing with the door handles or push buttons.

"Children get tired and are apt to disturb the driver by their noise or even by leaning against him. Try to distract them with games for the car or stories related to the trip.

"Sometimes a cold, sweet drink from a thermos will help the situation.

"Keep the front and back windows free of dangling ornaments and parcels interfering with rear vision mirrors.

"Insist on coffee breaks every two hours at least, and walk around for a little while."

"Psychologists tell us that an angry person is accident prone. For safety's sake keep the conversation agreeable while en route.

"We fear accidents which all too frequently spoil a happy holiday but let us do some of the simple things which will help to remove some of the dangers of driving in heavy traffic."

POPULAR BERMUDA

What month is best for a Bermuda holiday? There are 12 an-

swers, writes B. W. Riddell in The Financial Post.

The "season" for Bermuda-bound travellers used to be winter and early spring, when cold weather over most of North America supplies a powerful incentive for warm-weather holidaying.

But summer and fall have become tremendously popular in recent years. Even the home-and-fireside Christmas season sees tourists flocking to Bermuda for a look at the famous poinsettias in bloom.

Personalities
IN THE NEWS

Word has been received from the Royal Conservatory of Music, Toronto, that Miss Jean Pierzchola of Hillcrest has been awarded the Frederick Harris Scholarship in her recent piano examination. Miss Pierzchola was also awarded the Silver Medal for obtaining the highest mark in Alberta for Grade one piano. She was a pupil of Mrs. Arline Hill.

Mrs. J. R. Hill and her father Mr. O. Reineche of Calgary visited here last weekend, the guests of Mr. and Mrs. R. R. Pattinson.

Mrs. A. Fry and son "Butch" of Calgary were weekend visitors at the home of Mr. and Mrs. W. G. Hopkins.

Mr. Wyndam Jones was a visitor to Edmonton last week end.

Miss Edith Haysom is spending a few days in Lethbridge, the guest of Mr. and Mrs. Alwyn Haysom.

Mr. and Mrs. J. W. Clapham and son Cody of Edmonton, were the weekend guests of Mr. J. Howarth. Mr. and Mrs. Clapham were on their way to visit Kingsgate, B.C. and U.S. A. points.

Mr. and Mrs. J. Kelly of Penitence, B.C. are the proud parents of a son, born Friday, September 7. Mrs. Kelly is the former Margaret Hogan of Coleman.

Mrs. Rita Amell and four daughters have returned to their home in Edmonton after visiting here with her parents Mr. and Mrs. E. Ash.

Donald Woods has returned home to resume his schooling after having spent the summer working with an oil outfit in Southern Alberta and B.C.

Little Chief Service Station Under New Management

Mr. "Jerry" McGregor of Coleman has taken over the management of the station formerly operated by W. "Bill" Fraser.

Mr. McGregor has had considerable experience in the garage business. Jerry first came to Coleman a few years ago as a mechanic for Mr. Jim Wilkie, former operator of the Motordrome. He later worked for the Crown's Nest Pass Motors.

"Jerry" as he is well known to his many friends, assures his customers the finest in service and repairs.

Good luck, Jerry.

Newspaper Critics

Publishing a small paper is no picnic. If we print jokes, people say we are silly; if we don't they say we are too serious.

If we stick to the office all day, we ought to be out hunting interesting things to tell about; if we go out and try to hustle we ought to be on the job at the office.

If we do not accept contributions, we don't appreciate genius; if we print them the paper is full of junk.

If we edit the other fellow's story we are too critical; if we don't we're asleep. If we clip things from other papers we're too lazy to write them; if we don't

Mrs. J. Drew of Fort St. James B.C. is visiting with her mother Mrs. Holly who has been a patient in the C.N.P. Hospital.

Walter Tymchyna is back working at the Journal and attending school after working in several places during the summer.

Mr. and Mrs. G. Lant are the parents of a daughter born on Wednesday, September 12.

Mrs. Mary Kosma, employed at Fort Macleod, visited here last week.

Friends will be sorry to hear that Mrs. J. Glendinning is a patient in the C.N.P. Hospital. All wish her a speedy recovery.

Mrs. W. Hurd and family have moved into the home formerly owned by E. Kennedy and Mrs. P. Failer have taken up residence in the former Cooley home.

Leroy Failer is a patient in the Colonel Belcher Hospital in Calgary. Friends will be glad to hear he is improving.

Mr. and Mrs. Fred Joseph have purchased and moved into the former S. Vasek home.

Mrs. J. Fairhurst of Lethbridge who visited here last week also visited with Mrs. H. Wilton Clarke, senior.

Mrs. Rose Willets of Calgary and formerly a Coleman resident visited friends here last week and was the guest of Mrs. S. Penney. Mrs. E. Hill entertained at 3 tables of what in Mrs. Willet's honor. Honors went to Mrs. S. Penney, first, Mrs. J. Yates, second and Mrs. Willet's the consolation prize.

Mrs. S. Bell and daughter Naomi were Lethbridge visitors Saturday.

Mr. A. Krywolt has returned from a business trip to Calgary. He was accompanied by S. Bell, proprietor of the Empire Coffee Shop.

Mr. J. A. McKay of Pincher Creek, who has been school inspector in this district for several years has been transferred to the Medicine Hat school district.

we're stuck with our own stuff.

Now like as not some guy will say we swiped this from some other paper.

We did!

COURAGE for the big troubles in life and patience for the small ones and when you have faithfully fulfilled your day's labor go to sleep in peace. God is awake — Victor Hugo.

Blairmore Girl Wed In Calgary

Saturday, September 8 was the date chosen by Miss Frances Maniquet for her wedding to Roland Russell of Calgary.

Rev. MacKenzie performed the ceremony at the Western United Church at 2.30 p.m. for the only daughter of Mr. and Mrs. George Maniquet, and the son of Mr. and Mrs. C. Russell of Coleman.

The bride wore a pure white suit with pink accessories complemented by a pink orchid corsage. Marie Erickson of Blairmore was the only bridal attendant. She chose a teal blue suit with blue accessories and a corsage of yellow roses.

Best man was Alfie Anderson of Calgary.

Following the ceremony the bridal party motored to Blairmore where a reception catering to approximately 50 guests, was held.

Flowers decorated the home of the bride's grandparents, Mr. and Mrs. Isaac Rae, for the reception. For the occasion Mrs. Rae made the traditional three-tiered wedding cake which was topped by a bride and groom.

For her daughter's wedding Mrs. Maniquet chose an autumn brown dress with gold leaf design and pink accessories. Mrs. Russell wore a sand dress with pink accessories. Both mothers wore pink corsages.

Following a honeymoon at Banff and Edmonton the young couple will take up residence in Calgary.

Out of town guests were from Spokane, Galloway and Burmis.

The Liquor Control Act**Application for Hotel Beer Licence**

Public notice is hereby given that the undersigned intends to apply to The Alberta Liquor Control Board for a Licence to sell Beer by the glass or open bottle, for consumption on the licensed portion of the premises, and also to sell Beer by the unopened bottle for consumption elsewhere than on the licensed premises, in conformity with the provisions of The Liquor Control Act and the Regulations made thereunder, with respect to the following described premises:

Beer Salesroom in the north-west corner of the ground floor of the Empire Hotel, situated on Lots 1 and 2, in Block 8, Plan No. 820 L, Coleman, Alberta.

Dated at Coleman, Alberta, this 22nd day of August, 1956.
 Stephen Bell,
 926 - 19th Ave., S.W.
 Calgary, Alberta.

Any person wishing to protest against the issuance of a Beer Licence to the applicant should notify the Alberta Liquor Control Board, Edmonton, Alberta, in writing, within thirty days of the date shown at the foot of this advertisement.

UNION CLEANERS

Blairmore, Alberta

MAGNET—Sightseers who took to a boat to view shattered prow of Swedish passenger ship Stockholm are seen through twisted wreckage of the craft as they take pictures of her in New York harbor before she is moved to drydock. It was this icebreaker prow which mortally wounded the Andrea Doria, sending the queen of Italy's merchant marine to the bottom off Nantucket Island.

Voluntary instructors for Home Nursing classes

(By Mrs. Ella Donnelly, Director, Nursing Services Saskatchewan Division, Canadian Red Cross Society)

Without warning someone in your family takes sick and on top of all your other household duties, you find yourself in a position of being a nurse. To a trained nurse this situation does not present serious obstacles, but for a young wife and mother or daughter, their feeling of helplessness is matched only by the fear of doing something wrong.

The problem is not a new one. It has been duplicated in countless homes since time immemorial. However, in hundreds of Canadian homes, there is at least one member of the family who does know what to do when illness occurs.

The Canadian Red Cross has been among those concerned with the teaching of Home Nursing. The Red Cross Home Nursing Course is an educational program taught by volunteer professional nurses to lay people. The course consists of at least 12 two-hour instruction, demonstration and practice periods.

The Home Nursing Course teaches the members of the class to recognize the symptoms of illness and how to report these to a doctor, how to keep a patient clean, comfortable and well nourished, how to give simple treatments and medicines ordered by the attending doctor. How to control the spread of communicable disease, how to use community health services and how to make improvised equipment.

Department store sales increased

Canadian department store sales increased 8.2 percent in the week ending July 14 this year over last. Sales in all provinces increased with the exception of Manitoba which reported a 4.5 percent decline. Sales increases in the other provinces were: Atlantic Provinces 10.3 percent; Quebec 18.1 percent; Ontario 13.2 percent; Saskatchewan 7.9 percent; Alberta 18.6 percent; and British Columbia 9.9 percent.

One night before B. S. Pulley visited the Santa Anita race track he dreamed constantly about the number 5. Not one to ignore such an omen, he bet \$500 on entry number five in the fifth race. And—it came in fifth. 3208

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder sprinkled on your plates holds them firmer so they feel more comfortable. No embarrassment caused by loose plates. Get FASTEETH today at any drug counter.

Discovers Way to Shrink Painful Piles

Here is a nice, clean, easy way to get relief from the nagging distress of swollen, painful piles without the inconvenience of ointments, pile pipes or suppositories. The secret is in taking just one small Hem-Rod Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal. Why suffer needlessly when Hem-Rod offers you so much. Get a package today. See for yourself how nice Hem-Rod is to use. How effective it is and how much more comfort it will quickly bring you. All drug stores. Low cost. Money refunded if you are not 100% pleased.

Strange fish tentatively identified

A strange-looking fish caught in the Souris river near the Middle Dam may prove to be another find of a rare type in Saskatchewan.

Now in the possession of the Saskatchewan Museum of Natural History, the fish was caught by J. K. Frederickson, of Weyburn.

According to Dr. Robert W. Nero, assistant director at the museum, it may prove to be the Brown or Black Bullhead (Ameiurus Nebulosus) belonging to the catfish family.

It is five inches long and appears, at first examination, to have the same features and external appearance as the Bullhead, he said.

The Bullhead has a heavy head, no scales, whiskers or tentacles on the lower jaw, a wide mouth, many sharp teeth and strong jaws. It has a dorsal fin and two pectoral fins with sharp needle-like spines which secrete an extremely irritating solution.

The Bullhead is rare in Saskatchewan but is common in the southern part of Manitoba and the eastern portion of the continent including the United States.

The first known find of the fish in Saskatchewan was made at White Sand river, east of Canora in September, 1954, by Emil Quinn of Yorkton. Photographs of this specimen were all that were available and Dr. Nero suggests that any future finds of peculiar fish should be preserved in a jar with alcohol, or other preservatives.

This fish will be submitted to the University of Saskatchewan for positive identification by Dr. D. S. Rawson, head of the biology department, and upon its return will be kept at the museum as a scientific record for study groups.

Driver program proves itself

While Winnipeg drivers have had fewer fatalities in the first six months of this year than has been known since 1935, fatal accidents in rural Manitoba are climbing.

R. B. Baillie, provincial registrar of motor vehicles, reports that there have been 21 fatal accidents in the country area since January and 537 injury accidents were recorded at the end of June for 1956. This is almost 175 more than last year's six-month total.

On the other hand, Winnipeg has had only three fatal accidents since January. St. Boniface and St. James have both been free of motor accident deaths in the past six months.

Mr. Baillie says he thinks the driver improvement program has done much to cut down accidents in the Winnipeg area and believes its effectiveness shows up in the comparison of town and country accident statistics. There are no driving programs yet outside the Winnipeg area. Examiners and equipment are ready to launch such a program at Brandon, once suitable space has been obtained.

Creamery butter stocks smaller

Stocks of creamery butter in nine cities of Canada declined slightly to 66,101,000 pounds at July 19 from 67,322,000 on the corresponding date last year. Stocks in the nine cities (in thousand pounds) were: Quebec, 5,086 (4,751) a year earlier; Montreal, 35,296 (32,248); Toronto, 6,449 (6,610); Winnipeg, 15,148 (15,665); Regina, 803 (1,262); Saskatoon, 790 (627); Edmonton, 992 (1,832); Calgary, 530 (454); and Vancouver, 1,007 (773).

(The Times, Wetaskiwin—July, 1956)

Fashions

Young ensemble

4649 52/54 6-14
by Anne Adams

She'll love the scooped-neck dress with its "grownup" Empire styling; add the little bolero to complete the smart ensemble! Perfect fashions for a gay plaid cotton, crisp pique, or a fine linen for her "Sunday" outfit!

Pattern 4649: Girls' sizes 8, 10, 12, 14. Size 10 dress and bolero take 3 1/2 yards 35-inch fabric; 1/2 yard contrast.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Strictly Fresh

Most obnoxious character in the office at the moment is the fellow who boasts about the two-week vacation he still has coming to him.

Western Sunbathing Assn. recently elected a "Miss Goose-pimple of 1956." What's bothering us is this: To what did she pin the ribbon?

Mrs. Bright was stamping her pretty little foot petulantly when her husband came home from the golf course. "Harry Bright," she stormed, "I found a letter in your coat pocket just now I gave you to mail exactly four weeks ago!" "I know," admitted Mr. Bright mildly. "I took the coat off that morning for you to sew back a button—and I'm still waiting for it."

Enrich linens

7021

by Alice Brooks

Want really satisfying needlework? Do this doubly interesting design. Embroider girl and flowers, crocheted skirt and edging. Add a lovely touch to gift linens! Decorate linens! Pattern 7021: transfer, one 11 1/2 x 19, two 8 1/2 by 15-inch motifs; crocheted directions.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Department P.P.L., 60 Front Street W., Toronto.

INTERESTING PORTS OF CALL FOR MAURETANIA PASSENGERS

Four Sunshine Cruises to the West Indies and South America have been scheduled for the Cunard liner Mauretania during the 1956-57 winter season. T. G. Miller, general passenger manager in Canada of the Cunard Line, announced today. The voyages will range from 14 to 18 days, and the Mauretania's cruising speed will enable her to call at considerably more ports on each cruise.

The 36,000-ton Mauretania will sail from New York Feb. 7 for an 18-day cruise to ten principal Caribbean ports. Minimum rate for this voyage is \$515. This will be followed by a 17-day cruise leaving New York Feb. 28. Rates begin at \$485, and a special feature of this trip will be the Mauretania's first visit to the island of liner. Birthplace of Alexander Hamilton. Nevins will celebrate the bi-centennial of Hamilton's birth during 1957.

The Mauretania leaves New York March 21 on a 14-day cruise to eight ports, with a minimum rate of \$380, and on April 6 she completes her cruising season with a 15-day voyage to nine ports. Rates for this cruise start at \$395.

Among the varied ports of call to be visited on one or more of the Sunshine Cruises, are: Nassau, St. Thomas, Martinique, Barbados, Trinidad, La Guaira, Curacao, Cristobal, Kingston, Havana, Port-au-Prince, Nevis, Grenada and St. Lucia.

The Mauretania begins her

Hard board production and shipments increased

Production of hard board by Canadian manufacturers increased 22 percent in June to 21,523,009 square feet from 17,614,514 a year ago and 36 percent in the January-June period to 124,333,814 square feet from 9,671,186 a year earlier. Domestic shipments rose 17 percent in the month to 12,814,630 square feet versus 11,001,983 and 53 percent in the six months to 75,006,295 square feet versus 56,581,991.

June export shipments declined less than 1 percent to 6,894,152 square feet compared with 6,918,986, but were 29 percent larger in the half-year at 46,034,409 square feet compared to 35,761,338.

NEW EQUIPMENT FOR LOCAL CONTRACTORS—Three new tractors, now hard at work on the Trans-Canada highway are shown above as they were delivered to Eliason's Limited by Norman Miller, local Minneapolis-Moline dealer. The big Big Diesels, one equipped with hydraulic shovel, were purchased following the award of a Trans-Canada contract to Eliason Brothers. Shown above delivering the tractors are Norm Miller, Bernie Sikka, M-X blockman, and an unidentified Eliason employee. —Times Photo.

Grain by hundredweight

The movement to change the basic unit used in grain handling from the bushel (a measure of volume) to a unit of 100 lbs. weight is gaining accelerated momentum.

Over several years the delegates elected by the 200,000 farmer-members of the three Canadian Wheat Pool Organizations have discussed the advantage of measuring grain by weight. In their 1948 annual meeting, the delegates of the Alberta Wheat Pool resolved that "Whereas the bushel as a unit of measure is cumbersome and out of date and of no real use in determining the value of grain" all commercial grain handling should be on the 100-pound basis.

An Interprovincial meeting of the three Pool Boards of Directors instructed the central office of the Canadian Wheat Pools to prepare a study on the metric system of weights and measures, particularly as to its use in the marketing of grain. The ensuing report has been widely circulated and discussed.

The Board of Grain Commissioners has carried on exploratory work, and has found almost universal support for replacing the bushel with the 100-pound unit in measuring grain. Legislation governing our Canadian weights and measures defines the pound as the basic unit, and, also, refers to the "central" of 100 pounds.

From the United States, "The Northwestern Miller" of 29th May, 1956, reports: "Steady progress is evident in the effort to change the basis of grain trading from the bushel to the hundredweight, the American Feed Manufacturers Association was told at its recent Chicago convention.

"The U.S. Department of Agriculture will start among all parties who would be effected about July 1st. The study will be completed by early fall.

"We are following a policy of slow but steady progress," J. A. Cooper, of Kansas City, said in summing up activities of the AFMA committee seeking the change. "We think we will get much information out of the USDA study, and that 90 percent of the facts developed will indicate the desirability of the hundredweight basis as opposed to the bushel."

"Recommendations by a task force committee of the National Conference on Weights and Measures propose that trading in grains be by the hundredweight rather than the current pounds per bushel.

"The committee asserted it had obtained support for its recommendations from the Farm Bureau Federation, the Grange and state and grain trade organizations."

On The Side: E. V. Durling

"Ours not to reason why"

How well do you understand women? Do you devote much time to a study of the opposite sex? Have you noticed the innumerable things women do differently than men? A man squeezes a toothpaste tube the logical way, that is from the top. A woman squeezes it from the middle. A woman strikes a match away from herself. Men the other way. Maybe the females have the right idea there. Women close their eyes when kissed. Men keep their eyes open. When undressing, a man takes his shoes off first. A woman takes her shoes off next to last. A woman turns on the gas and then looks for matches. A man gets the matches first. A woman looking at her fingernails holds her hand straight out and the palm down. A man looking at his fingernails bends his fingers toward himself. A woman never consumes a piece of chocolate candy in its entirety. She bites it in half to see what is inside. A man eats the whole piece immediately. Check this on your wife.

Life begins at 100

How do you feel about compulsory retirement when a man reaches the age of 65? George Brown of Bermuda thinks it is ridiculous. George is 100. He still works regularly in a lime kiln. His job is breaking rocks. He works a 12-hour day. He smokes cigars and drinks a pint of rum daily. At night he goes out dancing. His specialty is clog dancing.

Sweden's best seller

What is the salary of your next door neighbor? What is your boss being paid? What is the weekly wage of the husband of your wife's dearest friend? You probably don't know the answer to any of these queries. In Sweden it is different. Everybody knows what every other Swedish citizen earns. The income of every Swede is published annually in a book titled Sveriges Taxeringskalender. This book is the top best seller in Sweden. Has 1,283 pages, costs equivalent of \$9.80. Those who don't want to buy it, can read it at the public library. When a Swedish bachelorette meets an interesting bachelor she can hardly wait to check on him in the Sveriges Taxeringskalender to see what he earns and if he could support her in the style to which she would like to become accustomed.

Where angels fear to tread

The man shortage on the island of Rapa in French Oceania continues to be acute. There are six women for every one man on Rapa. The women are well-streamlined, statuesque and generally easy to look at. They are so anxious for male company that any man landing at Rapa is in danger of being kidnapped by some lonely females. The women do all the work in Rapa. Those fortunate enough to acquire a man keep him for a pet.

Safety first on the airlines

What are the safest seats in a passenger plane? Experts say those are the seats in the rear of the plane. Also records reveal plane seats facing the rear are safest in case of accident. Yet practically all passenger plane seats face forward. Airline operators claim most people object to seats facing the rear. They don't like to ride backwards. Why not have a special section in the rear of planes with seats facing the rear? Passengers interested in safety first? Or how about reversible seats permitting the passenger to arrange the way he wishes to face?

FOR SASKATCHEWAN GRAIN—This National Harbors Board Terminal No. 2 at Vancouver has been leased to the Saskatchewan Wheat Pool for a period of five and one-half years. It is expected to handle between 10 and 12 million bushels of Saskatchewan grain annually when new equipment has been installed and it is opened later this year. Wheat Pool officials say the terminal will speed deliveries and provide an additional 1,600,000 bushels of storage space for Saskatchewan farmers. The additional storage space at Vancouver brings Pool terminal space in Canada to about 22 million bushels. The Wheat Pool owns three giant terminals at the Lakehead with storage capacity in excess of 20 million bushels. A Wheat Pool Vancouver office will be opened at 736 Granville St., to handle grain checking and other business connected with terminal operation at the west coast.

TRY AND STOP ME!

By BENNETT CLEP

They are singing the praises of an obstetrician in Dayton, O., who has two fixed charges for his services: \$100 or \$200. "Do you look up your patient's financial rating before you decide?" he was asked. "Not at all," the obstetrician answered. "I base my charge on the first question the father asks me when I come out of the delivery room. If he says 'Is it a boy or a girl?' he gets a \$200 charge. But if he says, 'Is my wife all right, doctor?' I bill him for only a hundred."

A famous movie star who was being analyzed told her doctor that one recurring dream was really giving her the heebie-jeebies. "I keep dreaming that I'm walking down Hollywood Boulevard without a stitch of clothing on my back," she confessed. "What does that mean, Doctor?"

"It all depends on how you react to the dream," said her analyst. "Are you embarrassed?" "Definitely," the star declared. "I'm always wearing my last year's hat!"

Definition of "In-proof": the boss' relatives.

Science is being pressed to step on the tempo of man's battle of time in his war against insect-borne diseases.

While scientists are busy trying to find new ways to curb and destroy insect-bearing flying and crawling insects, a super race of insects resistant to all types of known insecticides is rapidly developing in many parts of the world.

After the discovery of modern insecticides like DDT it was generally believed that any insect-borne disease could be conquered rapidly by exterminating the insects. But, according to a report, some 35 species of insects—including carriers of the world's most dangerous epidemic diseases—already have been noted in more than 30 countries to be resistant to all types of insecticides.

For example, malaria-bearing mosquitoes show immunity to DDT in some areas of Greece, Lebanon, Indonesia, Saudi Arabia, Panama

and in the Mississippi area of the United States. Body lice spreading typhus can no longer be controlled by DDT in Korea. Fleas which are responsible for plague are manifesting resistance in certain parts of South America—and DDT and other chemicals no longer destroy flies in almost all countries where these materials have been used in recent years.

Motorists prayer

Grant me a steady hand, and watchful eye,

That no man shall be hurt when I pass by.

Thou givest life, and pray no act of mine

May take away or mar that gift of Thine.

Teach me to use my car for others' need.

Nor miss through love of speed The beauty of Thy world; that thus I may

With joy—and courtesy go on my way.

—Contributed.

Honeymoon Trip To United States

A double ring ceremony was performed by Father A. Anderson on Saturday, September 8 at 1 p.m. in St. Anne's Catholic Church, in Blainmore, when he united in marriage a popular Pass couple.

Repeating the marriage vows were Eleanor Duhamel, the eldest daughter of Mr. and Mrs. Henry Duhamel of Blainmore, and Ken Hammer, son of Mr. and Mrs. A. Hammer of Coleman.

For the ceremony baskets of gladioli were placed on the altar and Mrs. L. D. Huntly presided at the organ.

Given in marriage by her father, the bride was radiant in a ballerina-length gown of traditional white, featuring a bouffant skirt over hoop crinoline of French rose-point lace over satin. The bodice featured a portrait neckline edged with crystalite sequins and long lily-point sleeves. Her fingertip veil applied with satin roses misted from a coronet studded with tiny seed pearls and

crystalite sequins. She carried a cascading bouquet of red roses and lilies of the valley. Her jewelry, a gift of the groom, was a single strand of pearls with earrings to match.

Attending the bride was Miss Karen Haas of Blainmore, who wore a strapless cocktail length gown of yellow embroidered net over tulle, topped with a yellow net jacket and matching headpiece.

Junior bridesmaid was Claudette Duhamel, sister of the bride. She chose a cocktail length gown of blue brocade and net over tulle with a blue net jacket, and matching head-piece. Both attendants carried colonial bouquets of carnations and roses with ribbons to match their ensembles.

Preceding the bride down the altar were two little flower girls, the bride's youngest sisters, Marguerite and Evelyne. They wore identical dresses of blue and pink floored nylon over net crinoline with flowered head-pieces. They carried white baskets of carnations and red roses.

Best man for the occasion was

Bill Wesko of Lethbridge, while the other groomsmen were George Wesko of Nelson, U. sharing the guests was Dave Hammer of Coleman.

A wedding supper was held at the Turtle Mountain hotel at 4:30 p.m. at which 45 guests were present. At the reception following almost 80 people gathered to congratulate the young couple.

The bridal table was centered with a three-tiered wedding cake flanked by white candle sticks. The cake was topped by a bride and groom under a heart-shaped archway fashioned with pink roses.

Father Anderson proposed the toast to which the groom responded. Mrs. Duhamel chose a navy blue dress with white and pink accessories, for her daughter's wedding. The groom's mother was frocked in a grey dress with red accessories. Both wore corsages of pink roses.

For a honeymoon in Spokane and at other U. S. points the bride donned a flecked coral box style suit complimented by a black velvet hat and accessories. She wore

a corsage of pink roses. The happy couple will be at home in their Calgary apartment September 17.

Out of town guests at the wedding were from Milk River, St. Paul, Cochrane, Calgary, Nelson, Lethbridge and Coaldale.

Miscellaneous Shower

Honoring Miss Norma Shields, Miss Nellie Smolik entertained at the home of Mrs. L. Lytle at a miscellaneous shower Thursday evening. Games were played and the gifts presented in a gaily decorated basket, which matched a decorated sprinkling water can, from which fell multicolored streamers above the brides chair. The hostess presented the bride with a corsage of pale pink carnations. Pale pink sweetpeas and yellow and white gladiolus completed the floral decorations. Presiding at the tea table which was

centered with a bouquet of pale pink sweet peas and white daisies were Mrs. James Shields mother of the bride and Mrs. Watkins of High River, aunt of the bride. Assisting the hostess Miss Smo-

lik, were Mrs. L. McLafferty sister of the bride, and Miss Beatrice Gejdos.

Miss Shields was also the guest of honor at a recent shower at the home of Mrs. Ted Stewart.
